

2026

PROGRAM REPORT

Program Overview

One of the many charges of CYAP is to provide tutoring supports for at-risk students. As the cost for one-on-one tutoring services continue to rise, CYAP recognized the need to create a program to provide tutoring services to low-income families. As research began on how to most effectively fill this gap in services, CYAP learned students who struggle academically experience greater learning loss during the summer months. In turn, this results in a more difficult start to the school year, increased gaps in learning as students age, and lower self-confidence.

As a result, the Summer Bridge Tutoring Program began in 2021 and graduated our fifth cohort of students in August 2026. The Summer Bridge program partners with Carmel Clay Schools to select students who both need academic support over the summer and are on the Free and Reduced Lunch Program. CYAP recruits and trains teachers and tutors to work with these youth in the areas of reading and math.

Survey Results - Parents

As a parent, what was your favorite part of the Summer Bridge tutoring program?

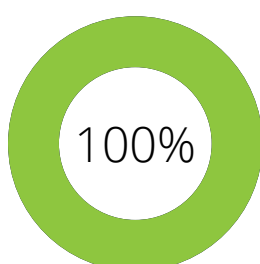

How excited Jackson was to tell me about what they did and learned when I would come get him.

The flexible schedule and meeting at the library.

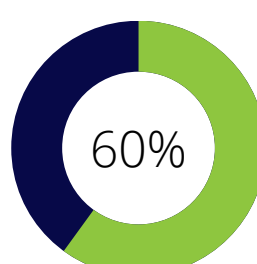

I enjoyed seeing how much Will got out of his sessions with his tutor. He felt very special and looked forward to their meetings twice a week.

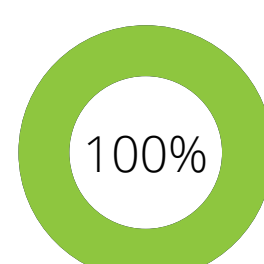

Percent of families who cited cost of service as the #1 barrier to access tutoring for their child

Percent of parents who want their child to participate in the program again in 2027

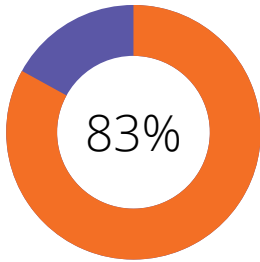

Percent of youth who were being tutored for the 1st time through the Summer Bridge Program

Percent of parents who felt their child's skills in reading and/or math progressed during the summer tutoring program

Survey Results -Tutors and Students

Stated that parents were reliable and communicated well

Would recommend using the same curriculum next year

Tutors - share one good memory between you and your student.

Skylar was a dream student. We had so much fun. I connected really well with mom, too!

When they were reading with more fluency and remembering what they read

When mom shared how excited she was to come to the session!!
I could see it in her expression those days too!

As a student, what was your favorite part of the day?

math and doing the activities

Learning everyday

Working together

Learning, snacks and everything
